

Secure Your Future Today!

With A Career in the Electronic Security & Life Safety Industry

Attention
High School
Students

ESA NATIONAL
TRAINING SCHOOL

AFFILIATED
MONITORING

The New Jersey Electronic Security Association invites you to attend the Certified Alarm Technician Level I training class. This class is exclusive for high school students who are considering a career in the innovative electronic security field.

This 3 day class course presents an overview of the theory, installation and maintenance of alarm systems, basic electricity, standards, perimeter detection, space detection, fire systems, control panels, communications, CCTV, job planning, and false alarm prevention. By the end of this course, students will have an understanding of the industry and their role within it, understand the importance of codes and standards and how to locate them and apply them, be able to define basic installation procedures, and compare the underlying technology behind the various security system tools and equipment.

There are many reasons to choose the electronic security field, including:

- Alternate to college
- Learn a trade at a young age
- Innovative field
- Technologically fast paced
- Cutting edge
- Security is a hot issue
- Learn networking
- IT based
